Dear Asa'ah,

NIHR Clinical Research Network Kent, Surrey and Sussex Research Support Award

You have been nominated for a National Institute for Health and Care Research (NIHR) Clinical Research Network Kent, Surrey and Sussex Research Support Award.

These awards are an opportunity for people who work in research to thank their non-research colleagues, who provide invaluable support to the delivery of research.

Kelly Wilson has nominated you for the excellent support you have given. We would like to present you with a certificate to show our appreciation for what you do.

Below is why you were nominated:

"Providing support and insight to help us at the NIHR Clinical Research Network Kent Surrey and Sussex to develop a research strategy and infrastructure which will enable homecare providers to get involved in research. It's early days for the project but Asa'ah's support and input so far has been incredibly helpful to make sure that what we are doing works for those within the homecare sector."

Thank you for everything you do to support research activity to take place within your organisation, which gives patients and service users the opportunity to participate in research.

If you are on X/Twitter please consider sharing your nomination and certificate on Twitter. Please mention @NIHRCRN_KSS and #KSSResearchSupportAward23. Or if you prefer, take a photo of yourself, and send it to gillian.reeves@nihr.ac.uk, and with your permission we will share your photo on our Twitter account.

With best wishes

Dr Jo Zamani
Chief Operating Officer
NIHR Clinical Research Network Kent, Surrey and Sussex
